

## WEST BENGAL STATE UNIVERSITY

B.Sc. Honours/Programme 4th Semester Examination, 2022

## MTMHGEC04T/MTMGCOR04T-MATHEMATICS (GE4/DSC4)

Time Allotted: 2 Hours Full Marks: 50

The figures in the margin indicate full marks.

Candidates are required to give their answers in their own words as far as practicable.

All symbols are of usual significance.

## Answer Question No. 1 and any five from the rest

1.		Answer any <i>five</i> questions from the following:	$2 \times 5 = 10$
	(a)	In $\mathbb{Z}_{14}$ , find the smallest positive integer $n$ such that $n[6] = [0]$ .	2
	(b)	Let $(G, *)$ be a group. If every element of $G$ has its own inverse then prove that $G$ is commutative.	2
	(c)	Let $H$ be a subgroup of a group $G$ . Show that for all $a \in G$ , $aH = H$ if and only if $a \in H$ .	2
	(d)	Check whether the relation $\rho$ defined by $x\rho y$ if and only if $ x = y $ , is an equivalence relation or not on the set of integers $\mathbb{Z}$ . Justify your answer.	2
	(e)	Show that the alternative group $A_3$ is a normal subgroup of $S_3$ .	2
	(f)	Show that every cyclic group is abelien.	2
	(g)	Show that the ring of matrices $\left\{ \begin{pmatrix} 2a & 0 \\ 0 & 2b \end{pmatrix} : a, b \in \mathbb{Z} \right\}$ contains divisors of zero and	2
		does not contain the unity.	
	(h)	Let A and B be two ideals of a ring R. Is $A \cup B$ an ideal of R? Justify.	2
2.	(a)	A relation $\rho$ on the set $\mathbb{N}$ is given by $\rho = \{(a, b) \in \mathbb{N} \times \mathbb{N} : a \text{ is a divisor of } b\}$ . Examine if $\rho$ is (i) reflexive, (ii) symmetric, (iii) transitive.	4
	(b)	If G is a group such that $(ab)^2 = a^2b^2$ for all $a, b \in G$ ; then show that G is commutative.	4
3.	(a)	Let $A = \{1, 2, 3\}$ . List all one-one functions from A onto A.	4
	(b)	Let $G$ be a commutative group. Show that the set $H$ of all elements of finite order is a subgroup of $G$ .	4
4.	(a)	Let $H$ be a subgroup of a group $G$ . Show that the relation $\rho$ defined on $G$ by " $a\rho b$ if and only if $a^{-1}b \in H$ " for $a, b \in G$ is an equivalence relation.	4

## CBCS/B.Sc./Hons./Programme/4th Sem./MTMHGEC04T/MTMGCOR04T/2022

- (b) Prove that the order of every subgroup of a finite group G is a divisor of the order of G.
- 5. (a) Prove that every group of order less than 6 is commutative.
  - (b) Let  $(G, \circ)$  be a cyclic group generated by a. Then prove that  $a^{-1}$  is also a generator.
- 6. (a) Show that the intersection of two normal subgroups of a group G is normal in G.
  - (b) Show that if H be a subgroup of a commutative group G then the quotient group G/H is commutative. Is the converse true? Justify.
- 7. (a) Prove that an infinite cyclic group has only two generators.
  - (b) In the rings  $\mathbb{Z}_8$  and  $\mathbb{Z}_6$ , find the following elements: 2+2
    - (i) the units and (ii) the zero divisors.
- 8. (a) Find all ideals of  $\mathbb{Z}$ .
  - (b) Let *R* be a commutative ring with 1. Then prove that *R* is a field if and only if *R* has no non-zero proper ideals.
- 9. (a) (i) Let *S* be a set with *n* elements. How many binary operations can be defined on *S*? Justify.
  - (ii) Let A and B be two sets with |A| = 5 and |B| = 2. How many surjective functions defined from A onto B? Justify.
  - (b) Let  $G = \left\{ \begin{pmatrix} a & a \\ a & a \end{pmatrix} : a \neq 0 \in \mathbb{R} \right\}$ . Show that G forms a group w.r.t. matrix 4 multiplication.
    - **N.B.:** Students have to complete submission of their Answer Scripts through E-mail / Whatsapp to their own respective colleges on the same day / date of examination within 1 hour after end of exam. University / College authorities will not be held responsible for wrong submission (at in proper address). Students are strongly advised not to submit multiple copies of the same answer script.
